We do not endorse or recommend any specific service. This is a list that might help you to find, for-fee, private transportation services. We recommend that you do your homework and make sure the transportation service you hire offers you the support and care you and your loved ones are looking for. You can find more services on-line. Make sure to ask your friends and neighbors – often “word of mouth” is the best way to find what is right for you.

Non-profit transportation services:

Community Support Service agencies of Ottawa provide escorted transportation options to and from non urgent medical appointments, adult day programs, and other essential services, using volunteers and paid drivers. Please contact your local community support service agency directly for more information.
